

Pre-delivery inspections for used trucks and concrete pumps

Independent 3rd party inspection by German engineers

If you are going to purchase used concrete pumps or concrete mixer trucks there is some risk. These trucks and machines are working in tough conditions and cement is an aggressive material. We have seen recently many costly problems on such trucks. Small repair such as worn brake or a broken gauge can sum up to several hundred

Euros. But if the auger motor is broken or the pump cylinders are leak the repairs can easily extend to some thousand \$. Therefore we recommend strongly an unbiased and independent inspection on concrete handling equipment.

MEVAS is performing inspections on used concrete pumps and ready-mix trucks of various brands. So far we have done pre-delivery inspections on machines of Schwing, Stetter, Liebherr,

Sanny, Putzmeister and some others, mounted on Mercedes, Scania and MAN trucks.

- Concrete Pump Inspection
- Concrete Mixer Truck Inspection
- Used Truck Inspection
- Tractor Head Inspections
- Used Trailer Inspection
- Fire Rescue Truck Inspection

We inspect pumps and trucks in Germany, Belgium, the Netherlands, France, Spain, Italy, Hungary, Romania, Austria, Sweden, Poland, Israel, United Kingdom, Colombia, USA and some other places. MEVAS inspects machines on auctions.
